

Julian Kopf

Mathematician

Pfalzstraße 17, 67378 Zeiskam, Germany • +49 176 57 69 88 60 • juliankopf@web.de

Date of birth: 26 December 1990 • Place of birth: 67346 Speyer, Germany • Nationality: German

PROFILE

Mathematician specialising in Abstract Algebra and Geometry. Shaped by an unconventional educational path spanning several disciplines and years of self-directed learning in technology, programming, AI, music, literature and craftsmanship – each domain pursued in its own right, with full concentration – my most valuable skill has grown from this: the ability to acquire solid, thorough command of any new field quickly.

EDUCATION

2019–2026	M.Sc. (Pure) Mathematics <i>Karlsruhe Institute of Technology (KIT)</i> Specialisation: Abstract Algebra and Geometry. Master’s thesis: “Oppenheim Conjecture – A Topological Proof via Homogeneous Dynamics” (1,0). Extended study period due to pandemic-related hardship provisions, used for studies beyond the required scope.
2016–2019	B.Sc. Mathematics (minor: Physics) <i>Karlsruhe Institute of Technology (KIT)</i> Specialisation: Abstract Algebra and Geometry. Bachelor’s thesis: “Der Satz von Cartan – Ausarbeitung. Anwendung. Ausblick.” (1,0) Further coursework: Analysis, Stochastics & Statistics, Numerical Mathematics, programming courses (Java, Python, R). Completed within standard duration.
2013–2015	Preparation for Music College – Classical Guitar <i>Preparation for entrance examinations (HfM Karlsruhe, HMDK Stuttgart, & others)</i> Intensive artistic training in classical guitar at conservatory level under private tuition. Participation in several entrance examinations. Admission was not denied on grounds of artistic merit, but due to external circumstances (discontinuation of the programme in Karlsruhe). Examination results and supporting materials are available.
2011–2013	Physics (minor: Chemistry) <i>Karlsruhe Institute of Technology (KIT)</i> Foundation-level Physics studies. Credits partially transferred to the subsequent Mathematics degree.
2010–2011	Mechanical Engineering (1 semester) <i>TU Kaiserslautern</i> Reorientation towards the natural sciences.
2010	Abitur (German University Entrance Qualification) <i>Goethe Gymnasium Germersheim</i>

WORK EXPERIENCE & PRACTICAL ACTIVITIES

Ongoing	Tutoring & Music Instruction <i>Freelance</i> Many years of experience in one-to-one instruction in Mathematics, Physics and Guitar for school and university students.
Ongoing	Guitar Technician & Amplifier Repair <i>Freelance</i> Maintenance, setup, repair and modification of guitars and valve amplifiers.

please turn over

2019 – 2022	Self-employed – Outdoor Sports (Rental & Tours) <i>Micro-enterprise (takeover of family business)</i> Continuation and downsizing of the family outdoor sports business. Focus: canoe equipment rental. Organisation and leadership of individual tours.
Various	Assistant – Outdoor Sports & Youth Work <i>Erlebnissport (family business) / VG Dannstadt-Schauernheim</i> Support on canoe, kayaking, canyoning and rafting tours. Holiday supervision for children and young people as an assistant in local youth welfare.
Seasonal	Seasonal Worker <i>KABS e.V., Southern Palatinate</i> Municipal action group for the control of mosquito populations.
2015 – 2016	Internships <i>Various (fitness, IT, trades)</i> Several internships in fitness, IT and skilled trades for career orientation.
2010	Holiday Worker (10 weeks) <i>Daimler AG, Germersheim Plant</i> Large spare parts logistics: planning and packaging (dispatch preparation) in a production environment.

CONTINUING EDUCATION (CERTIFIED)

2026	Outskill Generative AI Mastermind & Additional Courses <i>GrowthSchool</i> Foundations and applications of Artificial Intelligence.
Various	Key Competencies: Stress Management, Speed Reading, Academic Working Methods <i>House of Competence (HoC) / Forum Science & Society (FORUM), KIT</i> Seminars within the Studium Generale programme covering self-management, reading techniques and academic methodology.

SKILLS & COMPETENCIES

Languages:	German (native), English (fluent)
Mathematics:	Pure Mathematics (Abstract Algebra, Geometry, Analysis, Stochastics & Statistics, Numerics)
Coding:	Java, Python, R, MATLAB and Wolfram Mathematica (university); HTML, C#; shell scripting & automation. Quick to pick up new languages. GitHub: https://github.com/qns7
IT:	macOS, Linux, Windows, office tools, AI tools & workflows (Anthropic Claude, Google Gemini, OpenAI ChatGPT)
Craftsmanship:	Woodwork and metalwork, electrics, home repairs, interior design – broad experience, fully independent
Music:	Classical & electric guitar (advanced), former conservatory audition level
Personal:	Resilience, reflective thinking, empathetic communication, self-reliance

INTERESTS

- Lifelong learning
- Literature (world literature, philosophy, psychology)
- Music (guitar, composition)
- Visual arts (drawing, museums)
- Electronics & DIY projects
- Interior design (Feng Shui, personal spaces à la Virginia Woolf)
- Technology, IT & coding

Supporting documentation for the stations listed is largely available. A selection of documents is enclosed; further materials will be provided on request.
